

## Limbic Arc launches beta testing of new app – providing end users with industry first quantum-energy wellness product "InfoBoost™"

LINDON, Utah, July 31, 2018 (GLOBE NEWSWIRE) -- Limbic Arc, LLC, a Global Unicorn Holdings company (OTC PINK: GUHI), announced today that it has initiated the beta testing of a cutting-edge app that provides quantum-energy wellness products to the users. The beta testing is being conducted by 150 Limbic Arc distributors that have been selected to assist in the implementation and review of the informational energy program.

“Launching the Limbic Arc is a breakthrough step forward that will enable everyday people to use the principles of quantum mechanics to provide an informational boost to their wellness.” Vaughn R Cook, CEO of Global Unicorn Holdings, Inc. “The insights that we will receive through this beta test will help us to make adjustments that will make this powerful tool more user friendly for the masses.”

The Limbic Arc has two parts. The first is a library of information fields that reside on the internet cloud. These are logarithmic expressions assigned a link with items in the physical world by a proprietary system. The second is an app that you use to access and manage that library of Limbic Arc products, called “InfoBoosts™”.

*“Our distribution network is growing daily because of strong demand for this technology, as well as the associated business opportunity said Ron Spence, Master Distributor for Limbic Arc, LLC. As we complete the beta testing phase, we expect monthly subscriptions to ramp up substantially as the excitement spreads.”*
